

C

Operator Precedence
and Associativity

The operators are shown in order of precedence, from highest to lowest.

Operator	Associativity
::	unary: left to right binary: right to left
() [] -> .	left to right
++ -- + - ! ~ (type) * & sizeof	right to left
* / %	left to right
+ -	left to right
<< >>	left to right
< <= > >=	left to right
== !=	left to right
&	left to right
^	left to right
	left to right
&&	left to right
	left to right
?:	right to left
= += -= *= /= %= &= ^= = <<= >>=	right to left
,	left to right
